

# Take a breath

## THIS ELEVATOR IS EQUIPPED WITH OTIS AIR PURIFICATION TECHNOLOGY

---

The new Otis Cab Air Purifier uses bipolar ionization technology to significantly reduce airborne bacteria and viruses in this elevator.

### HOW IT WORKS

- 1 Attached to the elevator fan, the Otis Cab Air Purifier generates both negative and positive ions
  - 2 The ions attach to viruses, bacteria and other microbes, causing a chemical reaction that degrades them
  - 3 Harmful pathogenic microbes are neutralized, reducing the spread of airborne infection
- 

### While you're here...

Otis encourages all passengers to follow the formal guidance of the CDC and government health officials. Please continue to wear a face covering, avoid touching elevator surfaces directly and maintain social distancing.

Visit [cdc.gov](https://www.cdc.gov) for the latest information.
